Dear Dr. Henney:

I am concerned about the proliferation of genetically engineered food, and the fact that currently I have no way of knowing whether or not the food I buy contains genetically modified ingredients.

I support docket #OOP-1211\CPI. I strongly feel that all GE food should be so labeled, so that I, the consumer, am informed and have a choice.

I also feel there should be a moratorium on GE food pending long-term studies verifying their safety for both the people who eat them and the environment in which they are grown.

Thank you for your consideration.

Sincerely,

Emily Graeser

OOP-1211
