Dr. Henney,

m writing to express my concern over the DA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

GE foods should be labeled so I am ed and have a choice.

GE foods should not be assumed to be generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.
