Re: Docket # 00P-1211/CP1 and
Docket # 99N-4282

It has come to my attention that there is a possibility that genetically engineered foods would be overlooked under the Federal Food, Drug and Cosmetic Act, which requires mandatory labeling of foods that have undergone "material" changes.

I would like to be informed by labeling of GE foods so that I do not purchase them. This is my right as a consumer.

Thank you for representing me.

Sincerely,

C 3095
