Dear Sir:

This is to urge you to grant our petition to prohibit the slaughter of downed animals Docket # 98P-0151/CP1. Animals too sick/injured to stand are too sick to be eaten. There is the potential for "mad cow deiease". It is impossible to move downed animals without causing greater pain + suffering to already injured animals - 90% of injuries causing downed animals is preventable with better care + handling.

Sincerely,
Marian Lambros

98P-0151
