Dear FDA;

Altho I am not a "veggie", I do not appreciate the risk I'm taking when I eat and serve "downed" animals!

Might as well step and pick-up road-kill.

Something as big as a cow is impossible to move humanely, and they are typically pushed with tractors or dragged with chains! Give me a break!! What in the name of pity is going on here!!!

Don't cows, pigs, chickens, have PAIN?

Removing the market for "downed" animals will provide an incentive for the industry to PREVENT downed animals in the first place!

I am hoping you will grant our petition to prohibit the slaughter of downed animals - Docket # 98P-0151/CP1.

Thanks,
