To Some Kind Person:

I'm writing in regards to Docket # 98P-0151/CP1 '98 OCT 25 A10:05

to grant the petition to prohibit the slaughter of downed animals.

Also its horrible these downed animals can be so cruelly moved. Doesn't anyone feel for these sad animals. I know they are in pain & have feelings just like humans. If that sick person can push them with tractors & drag them with chains. The animals should be humanely euthanized &

98P-0151

C2467

not lay dying in misery. What kind of mentally sick nation have we become.

If they were better cared for & handled 90% wouldn't be downed to start, & sick animals shouldn't come into the food chain anyhow.

If I had my way animals wouldn't be eaten anyway & they wouldn't go on breeding them. Nature & survival of the fittest would take care of things.

Sincerely, Mrs. Evelyn Hartem
