Dear Mr. Heavey,

Am extremely concerned about the overuse of antibiotics as growth promoters in poultry.

I understand this overuse is strongly connected to the emergence of antibiotic-resistant diseases.

I urge you to move immediately to ban animal uses of growth-promoting antibiotics used in human medicine.

Thank you for your attention

Respectfully,
Leah S. Feldman

Boca Raton, Fl. 33433

P.S. I am 79 years old & am more concerned about this problem for my children and grandchildren.
