Susan Kaiser Johnson

Dear Ms. Henney,

I am writing to you about the concerns of genetically altered foods. as a consumer I am very concerned about the genetically altered food that I have been consuming, without my consent! I have a right to know what I am eating!! Is the tomato a real tomato or one with diffrent genes. This is not about cross breeding, this is very diffrent.

I demand that my food be labeled genetically altered or not!

I also demand that there be further testing of those products.

Thank you
Susan Kaiser Johnson
