December 18, 99

Dear Secretary Shalala,

1333 '00 JAN -3 A10:41

I am writing you to urge more labeling of radiated food products in our food stores, as being considered by the Food + Drug Admin. I strongly believe that it is the right of U.S. population to know + understand their purchase of this food that undergoes a change after exposure to radioactive isotopes. Thank you for giving this special attention for the New year.

Sincerely,

(Ms) Meredith Dobyns
