RE: Docket # 00P-1211/CP1 + #99N-4282

Dear Ms. Henney:

I strongly support stringent safety testing of and mandatory labeling of genetically engineered foods and seeds. It is obvious that many people care a lot about what we put into our bodies, the food chain and our environment. Allow informed individuals to make these choices for themselves.

Thank you for your time + attention.

Sincerely,

Marcia L. Oliver +
Reese C. Oliver, Jr.
