Dear Commissioner,

I am writing on behalf of the rulemaking docket # 00P-1211/CP1 demanding the FDA to develop a thorough pre-marketing and environmental testing and mandatory labeling for genetically engineered foods.

It is our right to know this and this is an overwhelming majority that support this idea.

We also need to test these foods to see what is actually being put into our bodies besides the nutrients a body needs. Please represent the public and take proper action in this matter.

Sincerely,

Dan Ulrich C1020
