Dear Ms Henney,

This note is to let you know that I should not be forced to have a medical exam or hearing test before I purchase a hearing aid. The FDA should not take away my right to decide and force me to medical exams before I purchase a hearing aid. I want to be able test hearing products without being forced to submit to medical exams. My husband who is now deceased found complete satisfaction to test hearing aid products which in the end he found one to be absolutely satisfactory. I ask you to not to adhere to the promoters who are trying to make this difficult

Q3N-0372

C 3652

to persons who are in need of hearing aids but are going to be restricted if the audiologists take the right away.

Please put this in the right perspective to benefit the rights of individuals

Thanking you, I am

Yours truly

Anna G. Kobin
