Dear Dr. Henry:

I am writing to urge the FDA not to allow non-dairy beverages to be labeled as "milk." There is no reason why the dairy industry should have a monopoly on the use of the word "milk." In fact, I believe that milk from cows should be required to be labeled clearly as "cow's milk" since the only milk that is real milk to people is their own mother's not that from a foreign animal.

Sincerely,
Evelyn Phillips Gutchell

Proud Supporter of Wildlife Land Trust
