5.6.00

Dear Commissioner Henney,

I am writing to you to express my concern about genetically engineered food products and to ask you that such "foods" be labelled clearly and distinctly as such. I won't both raising all of the ethical and safety issues that are concerned, as my contention is simply that as a consumer I should have the right to make my own decisions about what I put in my body. I believe that this is the only decision consistent with offering consumers the right to make their own choices about this highly controversial matter.

Thank you,

Gabriel Kram
