Dear Secretary Shalala:

I am very concerned about a proposal sent to you by the F.D.A. Redoing the current Regulations about the dispensing of hearing aids in this country. Any thing that makes it harder for the people with hearing loss to get the help they need is bad. Also it looks to me as if the cost to them would go up. So please give this a lot of though.

Things are working now for the best interests of the hard of hearing. Thanks.

Very Truly yours
Philip M. Winters
