Dear Sir/or Madam

Regarding Docket # 98P-0151/CP1 - kindly grant this important petition to prohibit the slaughter of downed animals. These very ill animals should NOT be allowed to enter the human food chain, posing an increased risk for bacterial contamination. Prohibiting marketing of this very small percentage of animals slaughtered will improve human health potential plus avoiding the inhumane process of moving these sick animals as they are now - with tractors or dragged with chains.

Your attention will be noted and appreciated.

Sincerely,
Joyce M. Brukoff
President
