Dear Congressman Burr,

The American Optometric Association appreciates your work in crafting a contact lens prescription release bill that requires that sellers provide doctors with all the information necessary to respond to requests for verification, predicates verification on direct successful communication by the seller, provides that sellers may not fill a prescription when the prescriber informs them it is invalid, and contains appropriate penalties for violations of these provisions.

Based on these substantial improvements we are pleased to endorse this new measure. Thank you again for your work on this important issue.

Best Regards.

Sincerely,

Victor Connors
