Material Safety Data Sheet

Company : ASAHI FOOD & HEALTHCARE, LTD.

Address : 〒329-0414
18, Koganei, Kokubunjimachi, Shimo-tsuga-gun, Tochigi-ken
Position : TOCHIGI PLANT, QUALITY CONTROL DEPT.

Phone : 0285-40-7612

Name : Shuji Fujiwara

Date : November 19, 2004

Ingredient name Dried brewery yeast Y3

---

1. Specification of Substance

Single product

Dried Yeast

---

2. Classification of dangerous and harmful property

Classification : With no classification standards

Dangerous property : With no application

Harmful property : With no application

---

3. First aid measure

When it goes into eyes : Washing eyes with running water

When it adheres to the skin : Wash off with water

When it inhales : Leave that place immediately and inhale the fresh air

When it swallows : No problem

---

4. Fire fighting measure

Extinguishment method : With fire extinguishment agent to fire origin

Extinguishment agent : Water, CO_2 etc.

---

5. Accidental Release measure

Collects in suitable container and wash away using water.

---

6. Handling and storage

Handling : Since it is easy to absorb moisture, after opening is used promptly.

Storage : Cool and dark place

7. Exposure control

Management concentration : With no application

Permissible concentration : With no application

Equipment measure : Especially nothing

Protective equipment : Especially nothing (A mask etc. is worn if it seems that powder disperses.)

8. Physical and chemical property

Appearance etc. : Light yellow-white ~ brown powder with characteristic flavor and taste

Solubility : Insoluble in water

9. Stability and reactivity

Flash point : With no data

Ignition point : With no data

Explosion limit Maximum : With no data Minimum : With no data

Flammable property : It may burn with high temperature.

Ignition property (Auto-ignition property, Reactivity of water) : None

Oxidation property : None

Self-reactive property・Explosion property : With no data

Stability・Reactivity : Stable

10. Toxicological information

With no knowledge

11. Ecological information

With no knowledge

12. Disposal considerations

Especially nothing

13. Transport information

It confirms that there is no leak on the occasion of transportation, and prevention of cargo pile collapse is ensured so that there may not be a fall down, fall and damage.

14. Regulatory information

None

Although written contents are created based on the information that came to hand at present, what guarantee is not offered about this information.
