Dear Sir: Re: Docket No. 97N-0217

We would vote to have the proposals in the FDA document

Docket No. 97N-0217

to be accepted. Please accept these proposals. We support them to facilitate approvals for minor use animal drugs. Let us stress there is a severe problem within the Idaho Aquaculture Industry and elsewhere namely here in Hagerman Idaho and our Magic Valley Area. This is because of the shortage of approved new animal drugs for use in minor species. We submit our two votes in favor.

Thank you.

Yours truly,

97N-0217
