Rockville, MD, 20852**

Dear Sir or Madam:

My name is Dr. Charles L. Coster and I have been practicing
medicine as a Family Physician for 23+ years. Furthermore, I
have been prescribing bio- identical hormones for my patients for five+ BHRT
has been a tremendous comfort to them as it alleviates Pre and Postmenopausal symptoms
(name) (specialty) (length of time) (length of time) (symptoms)

I consult with my patients and with their pharmacists to design and prepare bio-
identical hormone therapies specifically for me, and my pharmacist prepares them.

Without this medication, they would Suffer irreversible damage to their
Physical and Mental wellbeing and suffer serious side effects from
commercially prepared HRT's, which have been shown to be dangerous
in all the Trial studies but the Pharmaceutical companies refuse to
present this fact. THE power of SERIOUS \$\$\$\$\$\$ should not influence
the FDA in its decision making process.

(Describe how your patients would suffer or how their lives would be more difficult without the medication.)

The benefit of BHRT is that it is designed for individuals and I am concerned that
Wyeth's petition (Docket # 2005P-0411) would limit my ability to keep prescribing
these individualized doses for my patients. As a result, the FDA should reject Wyeth's
petition.

Sincerely,

Dr CHARLES L. Coster DO
