SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of May 31, 2007 (72 FR 30388), FDA announced the availability of a draft guidance for industry, “Bioequivalence Recommendations for Specific Products,” that explained the “process” that would be used to make product-specific BE recommendations available to the public on FDA’s Web site at *http://www.fda.gov/CDER/GUIDANCE/bioequivalence/default.htm*. As described in that draft guidance, FDA adopted this process as a means to develop and disseminate product-specific BE recommendations and provide a meaningful opportunity for the public to consider and comment on those recommendations.

In that same issue of the **Federal Register** (72 FR 30386), FDA also announced that 200 product-specific BE recommendations were being made available on FDA’s Web site at *http://www.fda.gov/CDER/GUIDANCE/bioequivalence/default.htm*. However, a number of the recommendations listed

in that notice were not posted on the Web site. In addition, some of the recommendations posted on the Web site were omitted from the **Federal Register** notice.
