Subject: Docket No. 02N 0204 Bar Code Label Requirements

Dear Ms. French:

In today's Federal Register Notice regarding Bar Code Labeling Requirements for Human Drug Products, the following web page is listed as a source of additional information:

<http://internet-dev.fda.gov/oc/meetings/barcodemtg.html>

However, my web browser returns a "cannot find server" message when attempting to view the above-listed web address.

If possible, please advise of the correct web page for additional information regarding the July 26, 2002 public meeting.

Thanks in advance for your help.

Regards,

Vincent Andolina
