Text of side Panel: Natural Factors BetaCareAll is a unique formula, containing 25,000 IU of natural Beta Carotene (8330 IU Vitamin A) and other beneficial carotenoids. This blend of natural carotenoids comes from the sea plant, *Dunaliella salina*. Beta Carotene is converted to Vitamin A in the body. Vitamin A is essential to many body processes, including maintenance of healthy skin, mucous membranes, bones and teeth. Carotenoids, found in fruits and vegetables, are powerful antioxidants – preventing damage to cellular structures throughout the human body.* With today's lifestyle, it is difficult to eat enough fruits and vegetables, making BetaCareAll an important source of precious carotenoids.
