Text of side Panel: Natural Factors has combined Calcium & Magnesium in a one-to-one ratio (250mg each) with Potassium and Zinc. Calcium ensures strong bones and teeth and is necessary for normal nerve function and muscle contraction. Magnesium is necessary for protein synthesis, carbohydrate metabolism, proper muscle function and helps to absorb calcium and potassium. Potassium works with calcium for nerve impulses and muscle contraction while Zinc supports our body's defenses, healthy skin and reproductive system.\* Citrates are extremely well-absorbed and well-tolerated by the body, making Natural Factors Calcium and Magnesium supplement an excellent way to get these important minerals.
