Docket OIP-0230
Room 1061, 5630 Fishers Lane
Rockville, MD 20852

To Whom it May Concern:

After reading about the dangers to Atlantic salmon of releasing genetically engineered salmon, I'm deeply concerned and ask that you put a moratorium on the domestic marketing and importation of GE fish, until the environmental and human health risks are better known and protected against.

I support a permanent ban on the release of genetically engineered fish into any open waterway, including net pens and ponds.

Sincerely,

Helen Peddle

(for environment committee)
