Subject: Request to speak at Bar Code Meeting

Mary:

The Pharmaceutical Research and Manufacturers of America (PhRMA) requests time to present at the July 26 Bar Code meeting. We are in the process of finalizing a position paper on the use of bar codes on pharmaceutical packaging and will forward that to you by July 12. It is likely that a representative from our bar code task force will present on behalf of PhRMA and that name will also be forwarded to you.

Let me know if any other information is needed.

thanks,

Alan
