July 30, 2002

Dear Sir or Madam:

This letter will serve as a 30-day notification pursuant to Section 6 of the Dietary Supplement Health and Education Act of 1994 that NBTY Inc. is using the following statements on the Glucosamine & UC•II™ Complex supplements under the PhysioLogics brand name:

- Supports Comfortable Joint Movement
- UC•II™ is a patented, non-bovine source of Type II collagen, the primary structural protein in joint cartilage that provides shock absorption and stability around bone.
- UC•II™ is undenatured, which means that it retains its natural constituents to better promote biological activity in the body - so it can do a better job of supporting joint structure.
- Glucosamine has been scientifically proven to promote joint health.
- Together, these ingredients work to promote healthy joints and improve mobility and flexibility.

The above statements are accompanied by the required disclaimer pursuant to Section 6 of the Dietary Supplement Health and Education Act.

Sincerely,

Ona Scandurra, MS, RD

Director of Nutrition Communications
