RE: Notification of Nutritional Support Statements

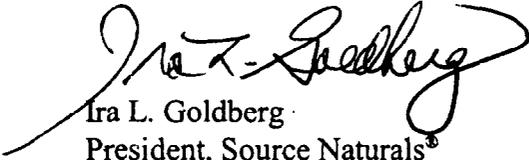

Dear Sir or Ma'am:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of L-Ornithine capsules, a dietary supplement. Source Naturals® is the manufacturer of L-Ornithine capsules.

Statements being made in the labeling of L-Ornithine capsules

- 1) L-Ornithine, a free form crystalline amino acid is a precursor of arginine, which is necessary for the synthesis of creatine, an important energy provider for muscles.
- 2) In addition, L-Ornithine is a key compound in the urea cycle, one of the body's main processes for eliminating ammonia.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals®
