WHY LIQUISENTIALS?

The unique **patented** liquid colloidal form of Liquissentials allows them to be absorbed by the body much more completely than tablets and gel caps.

Precise manufacturing and independent testing ensure that Liquissentials contain **all** of the ingredients stated on their labels, with no contaminants.

Liquissentials do not contain artificial colors, flavors, binders, extraction solvents, sugar, yeast, wheat, gluten, corn, dairy, sodium, starch, or alcohol.

Some Doctors' Brand products may stain fabrics and surfaces. Reseal cap tightly and store upright to prevent evaporation and seepage. May be refrigerated. If necessary, rehydrate by adding water and shaking well.

For adults only. This product is not intended to treat, cure, or prevent any disease. Do not use without consulting a physician if you take prescription drugs or if a medical condition is suspected or present.

*Daily Value not established.
 Other Ingredients: BioEnhanced™ Water, Glycenn, MicroActivated® Colloidal Mineral Complex, Proprietary Flavoring Blend, Potassium Sorbate, Sodium Benzoate, Calcium Propionate, up to 74 trace minerals naturally occurring with coral calcium

Calcium Plus™*

Calcium, Magnesium and Vitamin D, and other nutrients aiding calcium absorption. Calcium's major functions are building and maintaining bones and teeth, and supporting cardio-vascular health, but it has many other functions in the body. (See, e.g., Celotti F., Bignamini A. "Dietary Calcium..." J Int Med Res 1999 27(1). Magnesium promotes proper cell functions and helps maintain calcium metabolism. Vitamin D improves the absorption and utilization of calcium and phosphorus and is required for bone and tooth formation. The diet of most Americans is significantly deficient in calcium according to the *USDA'S Continuing Survey of Food Intakes by Individuals*.
