SECTION 403(r)(6) NOTIFICATION

Dear Sir or Madam:

In accordance with the requirements of section 403(r)(6) of the Federal Food, Drug and Cosmetic Act, Shaklee Corporation notifies FDA that it has begun using the following statements:

To build cartilage for joints.

In scientific studies, Glucosamine has been shown to support the body's natural ability to build and maintain cartilage which provides cushioning for joints and helps maintain range of motion.

In addition to potent Glucosamine, Osteokinetics contains a uniquely Enhanced Proprietary Blend with Devil's claw plant standardized extract, Alfalfa, as well as trace minerals copper, zinc, boron and manganese known to help build bones and cartilage.

Enjoy freedom of motion naturally.

Additional ingredients are added for nutritional support, in an Enhanced Proprietary Blend unique to Shaklee:

Devil's claw plant extract - contains harpagoside

975-0162

LET 801

Shaklee Corporation

which studies indicate helps maintain the normal process of inflammation.

Boron-plays a role in hormone metabolism required for strong bones.

which contain the statutory statement, on the following product:

Osteokinetics

I certify that the foregoing is complete and accurate, and that Shaklee Corporation has substantiation that the statements are truthful and not misleading.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Chris Jensen', with a stylized flourish at the end.

Christopher Jensen, MS, RD
