Dear Dr. Yetley,

Please be advised that Jarrow Formulas Inc. is marketing a product containing a "Structure and Function" statement on the label. According to the notification requirements set forth by the DSHEA (Dietary Supplement Health and Education Act, 1994) legislation, please be advised of the following:

Name of Product: L-Carnitine 250™

Active Ingredient: L-carnitine

Claim(s): Carnitine is an amino acid found in high concentrations in human heart and liver tissue, where it participates in metabolizing fatty acids into energy by the mitochondria.

The following disclaimer appears on the label: This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

These claims are limited to, and a result of, what we believe to be a substantial body of scientific evidence supporting the functional role of these nutrients. A compendium of relative published research substantiating the above statement(s) is on file at the corporate office.

Respectfully,

Mark Olson, M.Sc.
Dir. of Research and Development
