Dear Dr. Yetley:

This letter is to notify you that we are offering for sale vitamin B-Complex tablets as a dietary supplement. It contains the following structure/function statement: B-vitamins support the cardiovascular and nervous system. They are also essential for energy production, including carbohydrate, protein and fat metabolism. Folic Acid, B-6 and B-12 notably support healthy red blood cells. Our label contains the proper disclaimer as well.

Thank you,

Lori Akian  
Technical Nutrition Assistant
