Dear Dr. Yetley,
Please be advised that Jarrow Formulas, Inc. is marketing a product containing a "Structure and Function" statement on the label. According to the notification requirements set forth by the DSHEA (Dietary Supplement Health and Education Act, 1994) legislation, please be advised of the following:

Name of Product: Arginine 1000

Active Ingredient(s): L-Arginine, USP free base

Claim(s): "Supports Protein Synthesis" – Arginine supports protein synthesis as it is involved in the transport and storage of nitrogen.

The following disclaimer appears on the label: These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

These claims are limited to, and a result of, what we believe to be a substantial body of scientific evidence supporting the functional role of these nutrients. A compendium of relative published research substantiating the above statement(s) is on file at the corporate office.

Respectfully submitted,

Siddharth S. Shastri, B.A., C.C.N.
Director of Product Development

97S-0162

SUGGESTED USAGE: As a dietary supplement, take 1 to 2 tablets daily, or as directed by your qualified health consultant.

L-ARGININE is a semi-essential amino acid synthesized by the body from ornithine. Arginine supports protein synthesis as it is involved in the transport and storage of nitrogen. Arginine is important for proper physical performance because it is used by the body to produce creatine. Arginine 1000 is from free base arginine, which is 17% more potent than arginine HCl (hydrochloride).

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

PROD # 15036

Lot #. Best Used Before:

Jarrow FORMULAS™
