Dear Sir / Madam:

This is a 30-day notification for a dietary supplement that will be on the market within 30 days. The product name is **Prostate Support**. The claims on the 60 and 180 count packages are identical and are:

“**PROSTATE SUPPORT** delivers the highest quality, highest potency standardized extract of the Saw Palmetto Berry. Clinical studies from Europe have demonstrated that Saw Palmetto is beneficial in supporting the good health of the prostate gland. Our ultra-high potency extract of the Saw Palmetto Berry is standardized to deliver 85-95% total fatty acids. We also add a standardized extract of the bark of the Pygeum Africanum tree to support the activity of this formula, along with the powerful antioxidant Lycopene since it is the most abundant antioxidant carotenoid present in the prostate gland. These exceptional herbal extracts are then combined with Pumpkin Seed and Safflower Oil to help maximize their volubility and absorption. **Prostate Support** combines the highest quality, most highly beneficial nutrients that are known to support the health of the prostate.”

Respectfully Submitted,

Rob Maltas
VP Product Development
