Text of the side panel: Diet is important to longevity and enriching the diet with kelp can have many health benefits. Farmed from the sea, kelp contains almost every essential mineral and trace mineral necessary for human existence and can relieve nutritional deficiencies and improve total health. Kelp is a good source of iodine, essential for proper thyroid function which regulates the body's metabolism.
Text on PDP: Broad spectrum of trace and essential minerals.

Name of dietary ingredient that is the subject of statement: Kelp

Name of the dietary supplement: Natural Factors

I represent the information presented to be accurate and in compliance with supplement label regulations.

John Morley, Secretary
