Dear Sirs/Madames:

This letter is written with regard to our previous correspondence of October 4, 1996 whereby we notified the agency of statements of nutritional support being made for Vitex and Fema-Gen made by Rainbow Light Nutritional Systems. We have since identified an error in the text of these statements. We now confirm the correct text as follows:

- 1) Vitex (Chaste Tree) is an herb used in traditional European herbalism. Vitex regulates promotes hormonal balance, supporting a healthy female cycle.
- 2) Fema-Gen is an herbal system featuring Vitex (Chaste Tree), an herb used in traditional European herbalism. Vitex regulates promotes hormonal balance, supporting a healthy female cycle.

We do not believe this is a material change that affects the regulatory status of these claims; however, we wish to inform the agency, having identified the error.

Sincerely,

Margaret Johnson
Executive Administrator
