Section 403(r)(6) Notification

Dear Sir or Madam:

In accordance with the requirement of section 403(r)(6) of the Federal Food, Drug and Cosmetic Act, **Leiner Health Products** notifies the FDA that it has begun using the following phrase and statement:

Triple Formula for Healthy Joints
Support for healthy cartilage and connective tissue
Helps maintain optimal lubrication for joint mobility

Your Life® Osteo Joint™ combines three complementary nutrients to help maintain healthy joints and connective tissue.

Glucosamine Sulfate – Provides a source of Glucosamine, a naturally occurring amino sugar that is a basic building block for producing connective tissue, including cartilage and synovial fluid. It is needed for healthy structure and function of joints for optimum mobility. As bodies age, cartilage, a spongy tissue that acts as a shock absorber in joints may need additional nourishment to maintain adequate mobility and cushioning support.

Devil's Claw – Clinical studies in Europe indicate that this natural herb may help provide optimal joint mobility.

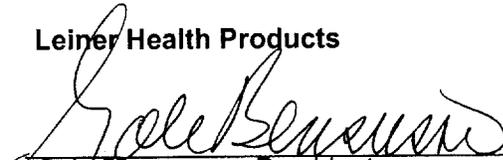

MSM (Methylsulfonylmethane) – Helps nourish the production of collagen, an important component of healthy joints and connective tissue. MSM works in conjunction with Glucosamine Sulfate by providing the building blocks of collagen.

on the following product:

YourLife® Osteo Joint™

Very truly yours,

Leiner Health Products

Gale Bensussen, President
