

Reporting HCT/P Deviations

*FDA AND THE CHANGING PARADIGM FOR TISSUE
REGULATION*

February 8-10, 2006

Las Vegas, Nevada

Anita Richardson

Assistant to the Director for Policy

Office of Compliance and Biologics Quality

CENTER FOR BIOLOGICS EVALUATION AND RESEARCH

**“Money won is twice as
sweet as money earned”**

From the movie *The Color of Money*

Topics to be covered

- Review of HCT/P Deviation reporting requirements
 - What, who, how, when?
- Reports received to date

Subpart E - Additional Requirements for Establishments Described in 21 CFR 1271.10

- 1271.330 Applicability
- 1271.350 Reporting

21 CFR 1271.330 - Applicability

- Nonreproductive HCT/Ps, and
- Regulated solely under PHS Section 361
 - Reproductive HCT/Ps (semen, oocyte, embryo) –reporting not required at this time

21 CFR 1271.350 - Reporting

- (a) Adverse reaction reports
- (b) Reports of HCT/P deviations
 - What, when, and how?

HCT/P Deviation Reporting

- Required for 361 HCT/Ps as of May 25, 2005
- Biological Product Deviation reporting for licensed products already required by 21 CFR 600.14
- Investigational new drugs used in a clinical investigation – neither HCT/P deviation reporting nor biological product deviation reporting is required

HCT/P Deviation means an event:

(21 CFR 1271.3(dd))

- That represents a deviation from applicable regulations in this part or from applicable standards or established specifications that relate to the prevention of communicable disease transmission or HCT/P contamination; or
- That is an unexpected or unforeseeable event that may related to the transmission or potential transmission of a communicable disease or may lead to HCT/P contamination

HCT/P Deviation Reporting (21 CFR 1271.350(b))

All HCT/P deviations related to a distributed HCT/P

- Must be investigated by the manufacturer
- Must report any such HCT/P deviation
 - That occurred in that facility or in a facility that performed a a manufacturing step for the facility under contract, agreement, or other arrangement
 - Only those related to “Core CGTPs”

Distribution

21 CFR 1271.3(bb)

- *Distribution* means any conveyance or shipment of an HCT/P that has been determined to meet all release criteria.

Core CGTPs

21 CFR 1271.150(b)

- Requirements directly related to preventing the introduction, transmission, or spread of communicable diseases
- Other requirements support the core CGTPs

Core CGTPs (10)

21 CFR 1271.150

- Facilities
- Environmental control
- Equipment
- Supplies & reagents
- Recovery
- Processing and process controls
- Labeling controls
- Storage
- Receipt, pre-distribution shipment, and distribution
- Donor eligibility determination (donor screening and donor testing)

When must I report HCT/P deviations?

21 CFR 1271.350(b)(3)

You must report each such HCT/P deviation *that relates to a core CGTP*...within 45 days of the discovery of the event.

Who must report HCT/P deviations?

- "You"
- Establishments that manufacture HCT/Ps
- If the HCT/P deviation occurred in your facility or in a facility that performed a mfr step for you under contract, agreement, or other arrangement

How do I report HCT/P Deviations?

Report on Form FDA 3486, electronically or by mail to:

Director, Office of Compliance & Biologics Quality,
CBER (HFM-600)

1401 Rockville Pike, Suite 200N
Rockville, MD 20852-1448

Electronic Biological Product Deviation Report (eBPDR)

Select Establishment for Reporting

Enter your establishment identification number below. Be sure to select the type of establishment identification number you are entering as either a Registration (CFN or FEI) or CLIA number. Note: The default establishment identification number type is CFN.

If you wish to retrieve a saved BPD Report enter both the establishment identification number and pre-confirmation number.

eBPDR Establishment Associations

eBPDR List of Active Users

What should I do if I have questions about HCT/P deviation reporting?

- Email account for questions about HCT/P deviations:
HCTP_Deviations@fda.hhs.gov
- Contact CBER's Division of Inspections and Surveillance, Sharon O'Callaghan at (301) 827- 6220

HCT/P Deviation Reporting

- Encourage end users to forward reports on possible deviations to the manufacturer
- Guidance will be developed
- Reports are reviewed, tracked, and trended

HCT/P Deviation Reporting to date

- 77 reports received to date (some multiple products)
 - Reportable = 29
 - Non-Reportable = 48

HCT/P Deviation Reports Products Involved

27 peripheral stem cells	2 leukocytes
25 cornea	2 bone marrow stem cells
11 bone	1 ligament
3 tendon	1 vascular graft
3 skin	1 limbal graft
3 oocyte	1 heart valve

HCT/P Deviation Reports

Reports to date include:

1. Donor screening or testing not performed or documented
2. Ineligible donor accepted
 - Risk factor, clinical evidence or physical evidence of communicable disease identified
 - Donor tested reactive for communicable disease
 - Donor incorrectly evaluated for plasma dilution

HCT/P Deviation Reports

Reports to date include:

3. Donor testing-testing not performed, not documented or incorrectly performed – HIV
4. Donor testing-unlicensed test used
5. Processing-HCT/P contaminated, potentially contaminated or cross-contaminated during processing

HCT/P Deviation Reports

Reports to date include:

6. Processing-in-process testing sample not representative of material to be evaluated
7. Inappropriate distribution
 - No review of required records
 - No sign-off by responsible person
 - Contaminated or potentially contaminated

HCT/P Deviation Reports

Reports to date include:

8. Incoming HCT/P not evaluated and inspected for damage and contamination
9. Supplies not verified to meet specifications for use

HCT/P Deviation Reports Not Reportable

- No products were distributed
- Not associated with disease transmission or contamination
- Not related to core GTP

HCT/P Deviation Reports Not Reportable

- Problem corrected prior to distribution of product
- Product released under urgent medical need

HCT/P Deviation Reports Not Reportable

- Positive pre-implant culture is in general not reportable as a deviation
 - Unless a complaint results in an investigation that reveals a departure from GTPs or
 - If the recipient had an adverse event, then report as an adverse reaction not HCT/P deviation

HCT/P Deviation Reports Not Reportable

- Reporting establishment was not manufacturer
- Reproductive HCT/Ps not required to report
- Product not regulated by FDA

**“The safest way to double
your money is to fold it
over once and put it in
your pocket”**
