Administration
Rockville MD 20857

NDA 20-828/SLR-010

Hoffman-La Roche, Inc
Attention: Barbara S. Taylor, PhD
Program Director
340 Kingsland Street
Nutley, NJ 07110-1199

Dear Dr. Taylor:

Please refer to your supplemental new drug application dated February 1, 2001, March 28, 2001, and April 27, 2001, received February 2, 2001, March 29, 2001, and April 30, 2001, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act for FORTOVASE® (saquinavir) Soft Gelatin Capsules.

This supplemental new drug application (Changes Being Effected) was submitted in response to requests from the Division to address the following labeling issues:

1. Implementation of a risk communication strategy designed to alert patients of the need to find out about potential drug interactions with FORTOVASE®. This strategy includes:
 - A. Use of the ALERT message on the container (bottle) labeling. (FORTOVASE® is not distributed with a carton.)
 - B. Use of the ALERT message on the "Free Goods" container (bottle) labeling. (FORTOVASE® is not distributed with a carton.)
 - C. Inclusion of the ALERT message in the professional package insert in the "WARNINGS" section and in the "PRECAUTIONS: Information for Patients" section.
 - D. Inclusion of the ALERT message in the Patient Package Insert.
2. Inclusion of statements in the professional package insert regarding the interaction of FORTOVASE® with St. John's Wort in the "WARNINGS" section and the "PRECAUTIONS: Information for Patients" section. Also, inclusion of this information in the FORTOVASE® Patient Package Insert.

We have completed the review of this supplemental application, as amended, and have concluded that adequate information has been presented to demonstrate that the drug product is safe and effective for use as recommended in the agreed upon enclosed labeling text. Accordingly, the supplemental application is approved effective on the date of this letter.

The final printed labeling (FPL) must be identical to the enclosed labeling (text for the package insert, text for the patient package insert, and the immediate container label for both commercial and free goods bottles.)

Please submit the copies of final printed labeling (FPL) electronically according to the guidance for industry titled *"Providing Regulatory Submissions in Electronic Format - NDA"* (January 1999). Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Please individually mount ten of the copies on heavyweight paper or similar material. For administrative purposes, this submission should be designated "FPL for approved supplement NDA 20-828/SLR-010." Approval of this submission by FDA is not required before the labeling is used.

If a letter communicating important information about this drug product (i.e., a "Dear Health Care Professional" letter) is issued to physicians and others responsible for patient care, we request that you submit a copy of the letter to this NDA and a copy to the following address:

MEDWATCH, HF-2
FDA
5600 Fishers Lane
Rockville, MD 20857

We remind you that you must comply with the requirements for an approved NDA set forth under 21 CFR 314.80 and 314.81.

If you have any questions, call Marsha S. Holloman, BS Pharm, JD, Regulatory Project Manager, at (301) 827-2335.

Sincerely,

{See appended electronic signature page}
