Finally, the proposed order requires respondent to provide all users of the seal with a copy of the order and demand that they stop using the seal in a manner inconsistent with the terms of the order. Respondent must also stop doing business with any person who uses the seal in a manner inconsistent with this order, and must begin a program of surveillance to ensure compliance with this order.

The settlement should provide greater assurance to consumers that any scuba or skin diving equipment bearing a seal of approval has passed appropriate tests to ensure that the claims made for the product are true.

FOR FURTHER INFORMATION CONTACT: William Thomas, State Director, Office of Surface Mining, Freden Building, 935 Pendell Boulevard, Mills, Wyoming 82644. Telephone 307/261-5550.

SUPPLEMENTARY INFORMATION: Title IV of the Surface Mining Control and Reclamation Act of 1977 (SMCRA), Pub. L. 95-87, 30 U.S.C. 1201 et seq., establishes an abandoned mine land program for the purposes of reclaiming and restoring land and water resources adversely affected by past mining. This program is funded by a reclamation fee

imposed upon the production of coal. Lands and water eligible for reclamation are those that were mined or affected by mining and abandoned or left in an inadequate reclamation status prior to August 3, 1977 and for which there is no continuing reclamation responsibility under State or Federal law.

Title IV provides that if the Secretary determines that a State or Tribe has developed and submitted a program for reclamation of abandoned mines and has the ability and necessary State or Tribal legislation to implement the provisions of Title IV, the Secretary may approve the State or Tribal program and grant to the State or Tribe exclusive responsibility and authority to implement the provisions of the approved program.

OSM received a proposed abandoned mine land reclamation plan from the Crow Tribe. The purpose of this submission is to determine both the intent and capability to assume responsibility for administering and conducting the provisions of SMCRA and OSM's Abandoned Mine Land Reclamation (AMLR) Program (30 CFR Chapter 7, Subchapter R) as published in the Federal Register (FR) on October 25, 1978, 44 FR 49932-49952.

This notice describes the nature of the proposed program and sets forth information concerning public participation in the Secretary's determination of whether or not the submitted plan may be approved. The public participation requirements for the consideration of a State or Tribal AMLR Plan are found in 30 CFR 884.13 and 884.14 (44 FR 49948). Additional information may be found under corresponding sections of the preamble to OSM's AMLR Program Final Rules (44 FR 49932-49940).

The receipt of the Crow Tribe's Plan submission is the first step in the process which will result in the establishment of a comprehensive program for the reclamation of abandoned mine lands on the Crow Tribe's Reservation.

By submitting a proposed Plan, the Crow Tribe has indicated that it wishes to be primarily responsible for this program. If the submission, as hereafter modified, is approved by the Secretary, the Crow Tribe will have primary responsibility for the reclamation of abandoned mine lands on the Crow Tribe Reservation. If the program is disapproved and the Tribe does not choose to revise the Plan, a Federal AMLR Program will be implemented and OSM will have primary responsibility for these activities.
