

Table 25. Antimicrobial Resistance among *Campylobacter jejuni* & *C. coli* by Meat Type,* 2002.

<i>Meat Type</i>	<i>Species</i>	<i>Antimicrobial Agent</i> [†]		
		DOX	CIP	ERY
Chicken	<i>C. coli</i> (n=90)	42.2%	10.0%	18.9%
Breast	<i>C. jejuni</i> (n=198)	20.7%	15.2%	
Ground	<i>C. coli</i> (n=2)	50.0%	50.0%	
Turkey	<i>C. jejuni</i> (n=2)	50.0%	50.0%	
Pork	<i>C. coli</i> (n=3)	33.3%		33.3%
Chop	<i>C. jejuni</i> (n=2)			

* No *Campylobacter* recovered from ground beef.

† No resistance seen to Gentamicin or Meropenem in *Campylobacter* isolates; one *C. coli* from ground turkey had MER MIC=2 µg/ml.
