December 16, 2013

Dear Valued Baxter Customer,

Thank you for your continued confidence in Baxter Healthcare Corporation. We are writing to communicate some very important information about the availability of Baxter 0.9% Sodium Chloride Injection, USP in 150 mL VIAFLEX Plastic Containers.

In order to meet higher demands for the 250 mL VIAFLEX products, Baxter will temporarily suspend manufacturing of the following code:

<table>
<thead>
<tr>
<th>Product Code</th>
<th>NDC Number</th>
<th>Size</th>
<th>Pack Factor</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2B1321</td>
<td>0338-0049-01</td>
<td>150 mL</td>
<td>36 Units</td>
<td>0.9% Sodium Chloride Injection, USP</td>
</tr>
</tbody>
</table>

Once existing inventory of this code is depleted we will no longer accept orders. We would appreciate your help in distributing this information to appropriate departments within your facility.

We expect to return this code to normal production by Q2 of 2014.

Please contact your local Baxter Sales Representative or call Baxter’s Center for Service, at 1-888-229-0001, with any questions.

Sincerely,

Thomas J. Progar
Vice President, Marketing
U.S. Medication Delivery
Baxter Healthcare Corporation
