ADDITIONS/DELETIONS FOR OTC DRUG PRODUCT LIST

CURRENT MONTH ADDS/DELETES LIST NOTE:

The List is sorted by Ingredient(s) and, within each grouping, by the Dosage Form; Route and then by trade name.

The individual product record contains the Therapeutic Equivalence Code, Reference Listed Drug symbol, applicant holder, strength(s), New Drug Application number, product number, and approval date. The last two columns describe the action. The Action Month is the CS month the action occurred. The OB Action is the type of change that has occurred.

New ingredient(s), new dosage form; route(s), new trade names, and new product additions are preceded by >A> during the action month. The change month is the current CS month; the change code for new approvals is NEWA.

Changes to currently listed products will list two records. The deleted product record will be proceeded by >D>. The product record change addition being made will be preceded by >A>.

The change code description:

- NEWA: New drug product approval usually in the supplement month.
- CAHN: Applicant holder firm name has changed.
- CAIN: Change. There has been a change in the Ingredient(s) name. All products will be deleted under the old name and all products will be added under the changed ingredient(s) name.
- CDFR: Change. Dosage Form; Route of Administration.
- CFTG: Change. A first time generic for the innovator product. A TE Code is added.
- CMFD: Change. The product is moved from the Discontinued Section due to a change in marketing status.
- CMS1: Change. Miscellaneous addition to list.
- CMS2: Change. Miscellaneous deletion from list.
- CPOT: Change. Potency amount/unit.
- CRLD: Change. Reference Listed Drug.
- CTNA: Change. Trade Name.
- DISC: Discontinued. The Rx or OTC listed product is not being marketed and will be moved to the discontinued section in the next edition.
