WARNING LETTER

Dear Mr. Hou:

On February 12 and 13, 2001, Jonathan T. Little conducted an inspection of your firm. The inspection was conducted to determine your firm's compliance with FDA's seafood processing regulations [21 Code of Federal Regulations (CFR) 123]. The seafood processing regulations, which became effective on December 18, 1997, require that you have and implement written verification procedures to verify that your foreign suppliers have implemented a preventive system of food safety controls known as Hazard Analysis Critical Control Point (HACCP) in accordance with U.S. requirements.

The product covered during this inspection was frozen whole tilapia imported from [REDACTED]. The inspection also covered the warehousing of fish and fishery products at your facility. At the conclusion of that inspection a list of violations (Form FDA 483) was presented to you. These HACCP violations cause your imported products to be adulterated within the meaning of 402(a)(4) of the Federal Food, Drug, and Cosmetic Act. Specifically,

You must have product specifications and an affirmative step which are designed to ensure that the fish and fishery products you import are not injurious to health in order to comply with 21 CFR 123.12(a)(2)(i) and (ii). There are no product specifications for frozen whole tilapia. The affirmative step you have chosen for this product, the processor's HACCP plan and a written guarantee from the processor, is incomplete. Your firm does not have the HACCP plan.

The above HACCP violations are not meant to be an all-inclusive list of deficiencies at your firm. It is your responsibility to assure that all of your products are in compliance with applicable statutes enforced by the FDA. You should take prompt action to correct all of the HACCP violations. Failure to promptly correct these violations may result in regulatory action without further notice such as seizure and/or injunction. Furthermore, your firm and the foreign

processor may be placed on import alert and future shipments of the product may be subject to detention without physical exam.

You should notify this office in writing, within fifteen (15) working days of the receipt of this letter, of the specific steps you have taken to correct the noted violations. If corrective action cannot be completed within fifteen (15) working days, state the reason for the delay and the time within which the corrections will be completed. Please send your reply to the Food and Drug Administration, Attention: Thomas S. Piekarski, Compliance Officer, 22201 23rd Drive SE, Bothell, Washington 98021-4421. If you have questions regarding any issue in this letter, please contact Thomas S. Piekarski, Compliance Officer at (425) 483-4975.

Sincerely,
