File No. 98-NWJ-27

Dear Mr. Toufayan:

During an inspection of your firm on March 26, 1998, an FDA Inspector collected samples of your Cheese Toufayan Bread Sticks packaged in nine ounce containers. These products are foods as defined by Section 201 of the Food, Drug, and Cosmetic Act (the Act) and subject to regulations under Title 21 of the Code of Federal Regulations (CFR).

The product, Cheese Toufayan Bread Sticks, is considered to be misbranded within the meaning of section 403 (i) (2) of the Act in that it contains Sunset Yellow FCF, a color subject to certification, but the label fails to declare it by its certified name in the list of ingredients as required by 21 CFR 101.22(k) (1). The certified name for this color is FD&C Yellow No. 6. However, this name can be used only if the color in the product comes from an FDA certified lot.

The above statement is not meant to be an all-inclusive list of the deficiencies which may be on your labels. It is your responsibility to assure that all of your products are labeled in compliance with all applicable statutes enforced by FDA. A copy of FDA's Food Labeling Guide is enclosed for your reference.

You should take prompt action to correct this deviation. Failure to promptly correct these deviations may result in regulatory action, such as a seizure, without further notice.
