Dear Sir or Madam:

This is to provide the required information to comply with our obligation under DSHEA labeling regulations.

Supplement: Vitamin E 400IU plus selenium

Manufacturer, packer: Natural Factors Nutritional Products, Ltd.
1550 United Blvd.
Coquitlam, B.C.
Canada V3K 6Y7

Distributor: Natural Factors Nutritional Products, Inc.
1111 80th St. SW, Suite 100
Everett, WA 98203

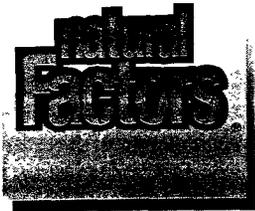

Text of side Panel: Each tablet contains 400iu (International Units) of pure vitamin E in the form of d-alpha tocopheryl succinate derived and isolated from 100% natural sources, vitamin C, selenium and manganese. This quick-release dry form is preferred by those who want an alternative to oil-based sources of vitamin E. Vitamin E is a fat-soluble vitamin and antioxidant that protects cell membranes and prevents free radical damage, supporting the cardiovascular system and general health.* Vitamin E's ability to protect cell membranes is important for people in polluted environments and those with active lifestyles. Experts recommend daily supplementation of vitamin E as it is difficult to get enough through diet alone.
