Anorex™ Directions: Take two capsules with a full glass of water three times per day morning, noon and early evening. Do not exceed 6 capsules per day.

The recommended serving is two capsules three times a day, which is the exact serving used in the clinical trials. However, many people who are sensitive to stimulants have reduced the serving as low as one capsule twice a day and have still seen results. As with many ingestible compounds, each individual reacts differently to Anorex™. The effective serving depends upon a person's body weight, metabolism, and overall health. You may want to start with one Anorex™ capsule twice a day and gradually increase the serving (up to the recommended level) until you find what works best for your body.

NOTE: Jitters, anxiety, dry mouth or insomnia may occur during the first week of use. Reducing number of capsules per day during the first week should eliminate these mild effects. For additional information on this or any other Klein-Becker usa product, please call our experienced customer service representatives at 1-800-898-5153.
