SilverSage™ products are distributed throughout the USA exclusively by:
Customer Service Distribution Center
Salt Lake City, UT 84116
Phone: 1-800-898-5153
www.ThermoGenicsPlus.com
Manufactured in the U.S.A.

Directions: To reduce caloric intake, take two capsules with a full glass of water, 15-30 minutes before main meals. For a significant energy boost, take 2 capsules as needed. You may take ThermoGenics Plus with or without food.

Do not exceed 6 capsules per day.

Note: Limit the use of caffeine-containing medications, foods or beverages while taking this product because too much caffeine may cause nervousness, irritability, sleeplessness and occasionally, rapid heart beat. For additional information on this or any other SilverSage™ product, please call our experienced customer service representatives at 1-800-898-5153.

New "Super Stimulant"™ replaces ephedrine as diet pill of choice

**Xantrex™ is more than just rapid weight loss...
Xantrex is about incredible ENERGY**

It started on the "trendy" West Coast (of course) where nobody is really "obese"... but everyone is trying to get rid of that last 5 or 10 pounds of excess body fat... trying to turn an "OK" looking body into a body "to die for." A new "super stimulant"... containing a highly absorbable, proprietary xanthine mixture... combined with an all-natural appetite suppressant began replacing the old (some would say "dated") ephedra compounds as the diet pill of choice for those who want it all... want it all NOW... and don't have time to wait. This fast-acting, fat-blasting, energy-pumping "super-pill" (called Xantrex)™ has finally gone mainstream, under the ThermoGenics Plus® label. But is Xantrex right for you?

Xantrex is not the right diet pill for everyone. Xantrex was made for rapid 5 to 10 pound weight loss and a quick burst of energy to get you started in the morning, get you through mind-numbing, mid-afternoon fatigue, or through a long, energy-intensive night on the town.* Xantrex, however, is not recommended for the clinically obese or significantly overweight. That's because Xantrex is much too powerful to be taken continuously over a long period of time (if you're obese, losing too much weight too fast is not the healthy thing to do).

But if you're no more than 15 pounds overweight... if simple diet and exercise is not getting you there fast enough... if you're having a hard time reducing your caloric intake, sticking to your diet plan, or if your body shaping program is leaving you tired, drained, and dragging your butt at the end of the day... there's nothing faster, as effective, or more satisfying than Xantrex!... plus it's easy to use!

Best of all, this new appetite-suppressing, high-energy, super-stimulant gives you the energy and intensity you want without the "ephedrine-induced" irritability that makes you impossible to live with.*

So, if you're tired of being two steps away from having the lean, tight, ultra-firm body you really want... you need Xantrex. If you're tired of being left behind because you don't have enough energy to keep up... you need Xantrex. If you're tired of being the last one to find out about something "new"... something that really works...you need Xantrex now.

Finally, it's your chance to get everything you ever wanted out of a diet pill: incredible energy; rapid weight loss; and the firm, head-turning body and magnetic self-confidence you've always dreamed about. ThermoGenics Plus super-stimulating, non-ephedra Xantrex™ formula. It's new... it works fast... there's nothing else like it!
