RE: Notification of Nutritional Support Statements

To whom it may concern:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Hyaluronic Acid, a dietary supplement. Source Naturals® is the manufacturer of Hyaluronic Acid.

Statements being made in the labeling of Hyaluronic Acid

- 1) Hyaluronic acid is a major component of joint tissue.
- 2) It helps to hold lubricating moisture in joints and cartilage, which affects their resilience, elasticity, and strength.
- 3) Source Naturals Hyaluronic Acid is made from patented BioCell Collagen II™, which has undergone an absorption enhancing hydrolyzation process that yields low molecular weight hyaluronic acid, chondroitin sulfate, and Collagen Type II peptides.
- 4) These elements make it a multifaceted ingredient, which may help support joint function and the appearance of healthy skin.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals® possesses substantiation that the statements are truthful and not misleading.
