**New Animal Drugs for Use in Animal Feeds; Lasalocid; Correction**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Final rule; correction.

---

**SUMMARY:** The Food and Drug Administration (FDA) is correcting a document amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) that appeared in the **Federal Register** of June 19, 2003 (68 FR 36744). FDA is correcting the amount of monocalcium phosphate in the formula for a free-choice, loose mineral Type C medicated feed containing lasalocid that was entered inaccurately. This correction is being made so the lasalocid regulations accurately reflect the approved formula.

**DATES:** This rule is effective June 19, 2003.
